DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

(1) the specifics of a liquid crystal display (LCD) device comprising a light-diffusing device and a liquid-crystal-contact-surface-roughness-forming device being formed of the same material comprising a first embodiment corresponding to claims 1 and 5-15;

(2) the specifics of a LCD device comprising a light-diffusing device and a liquid-crystal-contact-surface-roughness-forming device being formed as a single layer comprising a second embodiment corresponding to claim 2;

(3) the specifics of a LCD device comprising a light-diffusing device and a liquid-crystal-contact-surface-roughness-forming device being formed in the same manufacturing process comprising a third embodiment corresponding to claim 3;

(4) the specifics of a LCD device comprising a resin layer that functions as a light-diffusing device in the reflective display area and as a liquid-crystal-contact-surface-roughness-forming device in the transmissive display area comprising a fourth embodiment corresponding to claim 4.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
